

Publikationen

- (1999): Deep Proton Lithographic CAD-CAM for the fabrication of Monolithic Micro-optical Elements. In: 1998 IEEE /LEOS Summer Topical Meeting. Digest. Broadband Optical Networks and Technologies: An Emerging Reality. Optical MEMS. Smart Pixels. Organic Optics and Optoelectronics.
- (1999): Refractive Microlens Arrays made by Deep Proton Lithography: technology and characterisation. In: Proceedings of the 7th Microoptics Conference MOC'99.
- (1998): Advanced Fabrication Method for Monolithic Micro-optical Elements using Deep Proton Lithography and CAD-CAM. In: Proceedings of the IEEE/LEOS BENELUX Chapter Workshop.
- (1998): Technological Aspects of Deep Proton Lithography for the Fabrication of Micro-optical Elements for Photonics in Computing Applications. In: Proceedings of SPIE Vol. 3490: Optics in Computing '98.
- (1998): Technological Aspects of Deep Proton Lithography for the Fabrication of Micro-optical Elements for Optical Interconnects. In: Optical Fabrication and Testing, Washington, DC, USA, vol. Vol. 12.
- (1998): Demonstration of a Monolithic Micro-Optical Bridge for Free-Space Intrachip Interconnects. In: Diffractive Optics and Micro-optics, vol. Vol. 10.
- (1998): Arrays of Spherical Microlenses Fabricated with Deep Proton Lithography. In: Proceedings of the Symposium IEEE/LEOS Benelux Chapter.
- (1998): Fabrication and experimental demonstration of a multi-channel module for intra-MCM optical interconnects. In: Summaries of Papers Presented at the Conference on Lasers and Electro-Optics. Conference Edition., vol. Technical Digest Series. DOI: 10.1109/CLEO.1998.676285.
- (1998): Demonstration of a Monolithic Multichannel Module for Multi-Gb/s Intra- MCM Optical Interconnects. In: IEEE Photonics Technology Letters, vol. 10, no. 11, pp. 1629-1631. DOI: 10.1109/68.726772.
- (1998): Experimental demonstration of a multi-channel micro-optical bridge for multi-Gb/s, free-space intra MCM interconnects. In: Proceedings of SPIE Vol. 3490: Optics in Computing '98.
- (1998): Demonstration of a 16-channel micro-optical interconnection module for free-space intra-MCM data communication. In: Proceedings of the Symposium IEEE/LEOS Benelux Chapter.
- (1997): Technological aspects of deep proton lithography for the fabrication of micro-optical elements. In: Proceedings of the Second IEEE/LEOS symposium Benelux chapter, Eindhoven, The Netherlands.
- (1997): Experimental demonstration of free space intrachip micro-optical interconnect. In: Proceedings of the Second IEEE/LEOS symposium Benelux chapter, Eindhoven, The Netherlands.
