

Publikationen

- (1995): GaAs transit-time diodes for D-band frequencies. In: Electrical Engineering, vol. 78, pp. 257-259.
- (1994): GaAs transittime device structures for power generation from 100 up to 200 GHz. In: International Seminar on Terahertz Electronics, Darmstadt.
- (1990): MMICresonators on SiGaAs for Vband frequencies. In: Proceedings of IEEE: West Germany MTT/AP Chapter Workshop, Microwave Components and Subsystems.
- (1990): Vband rectangular microstrip line oscillator. In: Proceedings of the Workshop on Compound Semiconductor Devices and Circuits.
- (1989): Vband microstrip circuits for GaAs MMIC application. In: Proceedings of the Workshop on Compound Semiconductor Devices and Circuits.
