

## Publikationen

(2020): Construction of a Multisensor UAV System for Early Detection of Forest Pests. In: Advances in Intelligent Systems and Computing V, Cham, Switzerland, vol. 1293.

(2020): Multisensor UAV System for the Forest Monitoring. In: Proceedings of the 2020 10th International Conference on Advanced Computer Information Technologies (ACIT) [September 6-8, 2020; Deggenndorf]. DOI: 10.1109/ACIT49673.2020.9208993.

(2019): Sustainable Peer-to-Peer Energy Trading Principles and Smart Meter Requirements for Smart Grids. In: Bavarian Journal of Applied Sciences, vol. 5, no. 1, pp. 461-475. DOI: 10.25929/bjas.v5i1.66.

(2018): The Role of Smart Meters in P2P Energy Trading in the Low Voltage Grid. In: Advanced Computer Information Technologies- ACIT 2018, České Budějovice, Czech Republic.

(2018): The Role of Smart Meters in P2P Energy Trading in the Low Voltage Grid. In: Proceedings of ACIT 2018 (International Conference "Advanced Computer Information Technologies").

(2010): Licht und Farbe - Phänomenologie in Anwendung. Arbeitsergebnisse und Reflexion.. In: PADUA - Die Fachzeitschrift für Pflegepädagogik, Patientenedukation und -bildung, vol. 5, no. 1, pp. 16-24.
