

Publikationen

(2020): Thermal conductivity measurements of thin films using 3ω method. In: 7. Tag der Forschung, Deggendorf.

(2020): Thermal characterization of thin films using FEM simulations. In: 7. Tag der Forschung, Deggendorf.

(2020): On the Limits of Scanning Thermal Microscopy of Ultrathin Films. In: Materials, vol. 13, no. 3. DOI: 10.3390/ma13030518.

(2019): Temperature dependent investigation of hexagonal boron nitride films using scanning thermal microscopy. Poster presentation. In: 6th Nano Today Conference 2019, Lisbon, Portugal.
