

Publikationen

(2020): A framework for regional smart energy planning using volunteered geographic information. In: Advances in Geosciences, vol. 54, no. 10 December 2020, pp. 179-193. DOI: 10.5194/adgeo-54-179-2020.

(2020): Evaluation of Strain Transition Properties between Cast-In Fibre Bragg Gratings and Cast Aluminium during Uniaxial Straining. In: Sensors, vol. 20, no. 21. DOI: 10.3390/s20216276.

(2009): Technical Data Mining with Evolutionary Radial Basis Function Classiers. In: Applied Soft Computing, vol. 9, no. 2, pp. 765-774.

(2005): Process Identification and Quality Control with Evolutionary Optimized RBF Classiers. In: Proceedings of the IEEE Mid-Summer Workshop on Soft Computing in Industrial Applications (SMCia/05); Espoo, Finland; 28.-30.06.2005.

(2005): Process Identification and Quality Control with Evolutionary Optimized RBF Classiers. In: IEEE Mid-Summer Workshop on Soft Computing in Industrial Applications (SMCia/05), Espoo, Finland.

(1994): GaAs transittime device structures for power generation from 100 up to 200 GHz. In: International Seminar on Terahertz Electronics, Darmstadt.
