

## Publikationen

(2019): Fahrzeugbeleuchtungsanordnung, Leuchtmitteltreiberschaltung und Verfahren zur Bereitstellung von Informationen zur Bestimmung eines Beleuchtungszustandes.

(2014): Vehicle lighting arrangement.

(2014): Method of processing a contact pad, method of manufacturing a contact pad, and integrated circuit element.

(2014): Integriertes Bauelement und Verfahren zur Trennung einer elektrisch leitfähigen Verbindung.

(2013): System for separation of an electrically conductive connection.

(2010): Method of processing a contact pad, method of manufacturing a contact pad, and integrated circuit element.

(2010): System for separation of an electrically conductive connection.

(2004): Comparison of a new contact topographical measurement system for spherical and aspherical surfaces with interferometry. In: Current Developments in Lens Design and Optical Engineering V, Denver, CO, USA.

(2004): Comparison of a new contact topographical measurement system for spherical and aspherical surfaces with interferometry. In: Current Developments in Lens Design and Optical Engineering V, vol. 5523, pp. 225-234. DOI: 10.1117/12.558899.
