

## Publikationen

(2019): Spatial light modulator device for the modulation of a wave field with complex information.

(2017): Combined light modulation device for tracking users.

(2017): Method for producing holograms.

(2016): Combined Light Modulation Device for Tracking Users.

(2015): Projection display and method for displaying at least one of two-dimensional and three-dimensional scene or of content.

(2015): Projektionsvorrichtung und Verfahren zum Darstellen einer zweidimensionalen und/oder dreidimensionalen Szene oder von Inhalt.

(2011): Combined light modulation device for tracking users.

(2011): Small Form Factor for Holographic 3D Display Product. In: 2011 Collaborative Conference on 3D & Materials Research (3DMR), Jeju City, South Korea.
